SYMBOLS & TECHNICAL INFORMATION

Suitable for walls

Suitable for floors

Slip Resistance

Where possible we will indicate the slip resistance indicated by an 'R' rating, ranging from R9 (for indoor areas) to R12 (the highest value – recommended for external areas). If you require more technical details concerning the safety characteristics, please contact us directly.

Frost Resistant

Tiles that have been classified as 'frost resistant' has been tested for cold conditions when using for external areas.

Fixing

We do not recommend fixing rectangular tiles (especially wood effect tiles) at no more than 1/3 bond, please ask for further fixing advice.

Shading

Products with the shading symbol (V1 - V4), indicates the range has a degree of shade variation from tile to tile (within the batch), characterised by a light to random finish to the surface.

V1 Light

V2 Moderate

V3 High

V4 Random

Please Note

This literature is intended as a guide only.
Print cannot reproduce a true likeness of colour, tone or texture.
Reference to a sample is essential.

Wear Grade - PEI Testing

Wear Grade 1

Floor coverings in areas that are walked on essentially with soft soled footwear or bare feet without scratching dirt (for example residential bathrooms and bedrooms without direct access from the outside).

Wear Grade 2

Floor coverings in areas that are walked on by soft soled or normal footwear with, at the most, occasional small amounts of scratching dirt (for example rooms in the living areas of homes but with the exception of kitchens, entrances, and other rooms which may have a lot of traffic). This does not apply to abnormal footwear, for example hobnailed boots.

Wear Grade 3

Floor coverings in areas that, with normal footwear, are walked on more often with small amounts of scratching dirt (for example residential kitchens, halls, corridors, balconies, loggias and terraces). This does not apply to abnormal footwear for example hobnailed boots.

Wear Grade 4

Floor coverings in areas that are walked on by regular traffic with some scratching dirt so that the conditions are more severe than Class 3 (for example entrances, commercial kitchens, hotel, exhibition and sale rooms).

Wear Grade 5

Floor coverings in areas that are subject to severe pedestrian traffic over sustained periods with some scratching dirt, so that the conditions are the most severe for which glazed floor tiles may be suitable (for example public areas such as shopping centres, airport con-courses, hotel foyers, public walkways and industrial applications).

This classification is valid for the given applications in normal conditions. Consideration should be given to the footwear, type of traffic and cleaning methods expected and the floors should be adequately protected against scratching dirt at the entrances to building by interposing footwear cleaning devices.

London Office & Showrooms

THE SURFACE WITHIN™

71 -73 George Street
London
W1U 8AQ

T: 020 7474 2934

thesurfacewithin@minoli.co.uk

Nestled between Baker Street and Gloucester Place, just above Portman Square and Oxford Street.

The closest tube station is Marble Arch, but you can easily stroll from Bond or Baker Street stations as well.

Head Office, Distribution Centre & Showrooms

MINOLI

Transport Way
Cowley
Oxford
OX4 6LX

T: 01865 778 225

info@minoli.co.uk

Located on the east side of the historical City of Oxford, just off of the main circular road with simple access from the M40 and A34.

The closest train stations are Central Oxford, Thame & Haddenham and Oxford Parkway.
